

MR3457-47

Appln. No. 10/822,609

Reply to Office Action dated 8/3/2007

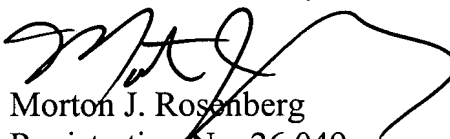

Remarks/Arguments

This case has been reviewed and analyzed in view of the Official Action dated 3 August 2007. In the Official Action, the Examiner has found three inventions, namely, Group I directed to Claims 1-11 drawn to a polymer solution containing cross-linking agent; Group II directed to Claims 12-29 drawn to a method of forming a membrane having cross-linking structure; and Group III directed to Claims 30-40 drawn to a material having cross-linking structure. The Examiner has required that Applicant choose one Group for further prosecution in this case.

By this Amendment and Response, Applicant elects Group III directed to Claims 30-40. Claims 1-20 have been withdrawn.

It is now believed that the subject patent application has been placed in condition for examination and such action is respectfully requested.

Respectfully submitted,  
FOR: ROSENBERG, KLEIN & LEE
